Physician Assistant

Wednesday, May 13, 4-7pm

UCLA Career Center, Second Floor, Room 200

According to the U.S. Bureau of Labor Statistics, physician assistants are projected to grow 38% from 2012 to 2022 because of the growing aging population and the demand for healthcare services. Physician assistants practice medicine under the direction and supervision of physicians and surgeons and examine patients, diagnose injuries and illnesses, and provide treatment. Join us to learn about:

• The American Academy of Physician Assistants, nationally accredited ARC-PA programs, and the national certification exam
• The area of medicine you would like to work in (e.g., primary care, family, emergency, surgery)
• Register today at career.ucla.edu/JumpStart
