Jennifer Li, Management Scientist at the RAND Corporation
PhD, Applied Linguistics, UCLA

Anthony Gonzales, Director of Membership at Biocom
MBA, Logistics, Materials, and Supply Chain Management, Arizona State, 2014

Les Koepplin, Director Federal Relations (retired)
PhD, History, UCLA

Les Koepplin’s career has been in university administration, focusing on campus relations with foundations, business, and the federal government. He worked in Washington for 25 years on policy formulation and advocacy, primarily in the areas of scientific research and development. He believes he could be of most help to students interested in university administration and/or working in Washington.

Tepring Piquado, Neuroscientist and Policy Researcher at the RAND Corporation
PhD, Neuroscience, Brandeis University, 2010

Tepring Piquado is a researcher at the RAND Corporation. She is interested in a variety of areas including traumatic brain injury, human-machine systems, work transitions, and rising out of poverty. Her graduate and postdoc research focused on language comprehension and retention. Dr. Piquado is a former CCST Science & Technology Policy Fellow at the California State Capitol. She earned her PhD. in neuroscience from Brandeis University and her B.S. in computer science from Georgetown University.

Ana Martinez, Project Director and Senior Analyst at UCLA Center for Health Policy Research
MPH, Public Health, UCLA, 2010

Ms. Martinez manages multiple research projects for the UCLA Center for Health Policy (CHPR) Health Economics and Evaluation Research Program, including evaluating the LA County Parks After Dark program and the First5LA funded UCLA Oral Health Program. Evaluations include analyses of cost, quality, access, and additional measures relevant to the goals of the program.
Gloria C. Chi, PhD, MPH, is an Epidemic Intelligence Service Officer at the Centers for Disease Control and Prevention (CDC), on assignment to Kaiser Permanente Southern California’s Department of Research & Evaluation. She completed her undergraduate training at the University of California, Los Angeles and her master's and doctoral education at the University of Washington School of Public Health. She has experience in an array of public health topics including chronic disease, environmental, social, and epigenetic epidemiology. At Kaiser Permanente, she is studying blood testing in children, hospitalized myocardial infarction rates by race/ethnicity, and childhood diabetes surveillance with electronic health records. She is also among the CDC’s disease detectives who investigate outbreaks and conduct epidemiologic investigations and surveillance to provide rapid, creative, and effective solutions to public health problems.

Antonio Sanchez, Political Director at IBEW Local 11
MURP, UCLA, 2012
